Statistics 101 Mid-Mock

Name: UDAY SONI
Enrollment No.: 2403031590322
Lab Number: 504

Submitted Time : 21 Jan 2026 - 03:53 PM

Score

Correct	100%	30
Wrong	0%	0
Skipped	0%	0

30
30

100%

Note: This score is not final

1. Statistics is mainly concerned with:

Large masses of data

1/1Marks

2. Descriptive statistics deals with:

Summarizing data

1/1Marks

3. Inferential statistics is used for:

Drawing conclusions

1/1Marks

4. Complete set of all observations is called:

Population

1/1Marks

5. A subset of population is known as:

Discover more SurveyHeart

Sample

1/1Marks

6. Qualitative data is also called:

Attribute data

1/1Marks

7. Nominal scale represents:

Categories

1/1Marks

8. Quantitative data can be:

Discrete or Continuous

1/1Marks

9. Ordinal scale provides:

Order only

1/1Marks

10. Interval scale does NOT have:

True zero

1/1Marks

11. Ratio scale has:

True zero

1/1Marks

12. Primary data is collected

First-hand

1/1Marks

13. Frequency distribution shows:

Number of occurrences

1/1Marks

Discover more SurveyHeart

14. Bar charts are mainly used for:

Qualitative data

1/1Marks

15. Histogram is used for:

Continuous data

1/1Marks

16. Pie chart represents data in:

Circles

1/1Marks

17. Boxplot shows:

Quartiles

1/1Marks

18. Ogive is used to represent:

Cumulative frequency

1/1Marks

19. Arithmetic mean is affected by:

Extreme values

1/1Marks

20. Median is the value which:

Is middle value

1/1Marks

21. Mode is:

Most frequent value

1/1Marks

22. Weighted mean is used when:

Importance differs

Discover more SurveyHeart

23. Combined mean is calculated using:

Group sizes

1/1Marks

24. Range is:

Max – Min

1/1Marks

25. Variance is the average of:

Squared deviations

1/1Marks

26. Standard deviation is:

Square root of variance

1/1Marks

27. Interquartile range is:

Q3 – Q1

1/1Marks

28. Coefficient of variation measures:

Relative variation

1/1Marks

29. Positive skewness means:

Tail on right

1/1Marks

30. Kurtosis measures:

Peakedness

1/1Marks
